

The Wayside Horn Project

You are being asked to contribute to a community campaign to raise \$378,000 for the construction of a wayside horn at the railroad intersection at Coast Boulevard. This project will greatly reduce the train horn noise as trains pass through Del Mar. By installation of a wayside horn, train operators will no longer have to sound their horns as they approach Coast Boulevard, except when the train operator determines that there is a need to sound the horn due to safety considerations such as limited visibility or when people are on or near the tracks. Instead, an approaching train will trigger the stationary wayside horn system that will sound only at the intersection. This system will operate day and night to reduce train horn noise throughout Del Mar. Many of us witnessed the live test in Del Mar of an actual wayside horn in Spring 2010, and it really makes a difference! To learn more about the benefits of the wayside horn, please visit www.delmarquietzone.com. By donating to the Del Mar Foundation, a qualified 501(c)(3) community foundation, you will be provided a receipt and documentation so that you can work with your tax advisor or accountant to claim a charitable deduction. We greatly appreciate your support of this worthy community project. Donors have already paid for the project design, and it is ready to go – it just needs your financial support!
